Full stack developer with a commitment to continual learning who seeks a full-time web development position. Worked on several applications from concept to deployment, using multiple front- and back-end technologies.

TECHNICAL SKILLS
JavaScript, Node.js, Express, MongoDB, MySQL, React, APIs, AJAX, jQuery, Bootstrap, HTML5, CSS3

EDUCATION
University of North Carolina, Chapel Hill, NC   August, 2017
UNC Coding Boot Camp — Javascript Full Stack Web Development — Certificate
An intensive 24-week boot camp focused on building web applications. The course involved a deep study of Javascript, Node.js, and several technologies and libraries that enable the creation of full stack applications.

Duke University, Durham, North Carolina   May, 2013
Master of Divinity — *Magna Cum Laude* — GPA: 3.829

Biola University, La Mirada, CA   May, 2009
Bachelor of Arts in Biblical and Theological Studies — *Summa Cum Laude* — GPA: 3.956
Accolades:
- Graduated in top ten of my class (faculty ranking) in the Torrey Honors Institute (a Classics program)

APPLICATIONS
Doppelgänger
- An app for expanding your universe. Built with Node.js, Express, React, MongoDB, Passport.js, and Socket.io.
- https://doppelgaenger.herokuapp.com/ — (Developed by a team of four)

Truckin' Good
- A food truck search and rate app. Built with Node.js, Express, MySQL, and AWS S-3 for file storage.
- https://still-sierra-11518.herokuapp.com/ — (Developed by a team of five)

Aardvark
- A college debt analysis tool built to provide individuals considering college with a financial forecast. Data is provided via the College ScoreCard API and Firebase.
- https://bmanch.github.io/aardy-look/ — (Developed by a team of three)

RELEVANT EXPERIENCE
Mindspire Tutoring & Test Prep   08/2014 - 04/2016, 02/2017 - Present
Premiere Tutor, Curriculum Developer/Writer, School Liaison
- Led a curriculum design and curriculum writing project. Also designed and created marketing resources.
- Taught several SAT & ACT classes and privately tutored multiple students.

Duke University   09/2012 - 06/2013
Research Assistant
- Researched and gathered data on broad based community organizing (hereafter, "BBCO") in London over a five year span. Organized the BBCO data into categories to assist the team in making visual displays of the data.
